Who we are

At Moolya Software Testing Private Limited, we lead globally in software testing and quality assurance, partnering with clients across industries to deliver top-tier solutions. Our services ranging from functional and automation to performance and security testing are designed to enhance software quality, efficiency, and productivity, ensuring client success and satisfaction.

Why Choose us

Skin in the Game

We go beyond vendor roles, fostering deep co-ownership with customers.

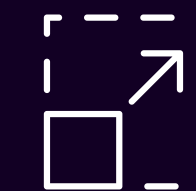

Culture Focus

We help customers address issues by focusing on cultural fixes.

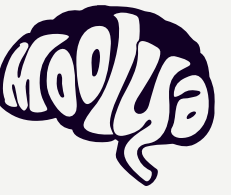

Leadership Friendly

Moolya empowers C-, V-, and D-level leaders with insights.

Scaling Value

Moolya unifies Tech, Test, Product, Customer & Business insights to scale value.

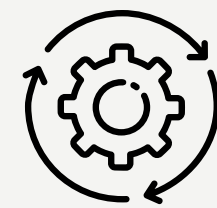

Our Quality Engineering Philosophy

At Moolya, we believe quality is not a checkpoint at the end, but a culture built into every stage of the product lifecycle.

Shift-Left Approach

We adopt a **shift-left approach**, focusing on prevention over detection.

Automation-First Strategy

Automation-first strategies ensure **70–85%** coverage, accelerating release cycles.

Built-in Trust

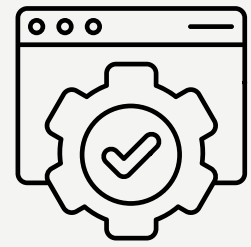

Compliance, security, and reliability are integrated into every test stage.

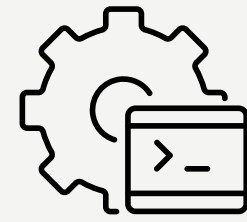

Faster, safer, and more stable releases that reduce risk while improving user adoption.

Our Solutions

360° Testing Solution

Holistic testing for comprehensive coverage and risk mitigation, enhancing quality and satisfaction.

Fastrack Automation

Dynamic, tool-agnostic automation to reduce time-to-market and ensure thorough test coverage.

Rapid Deployment Testing Solution

Streamlined testing for faster release cycles and confident, quality product delivery.

SpeedMaster Optimization Solution

Performance optimization to boost application speed, responsiveness, and scalability.

Advantages of Our Solutions

Alignment with Customer's

Digital transformation goals

Testing Solutions

Address unique challenges & requirements

Accelerated

Time to Market & Reduced Cost

Case Study 1

Cross-Platform Healthcare App

Challenge:

Ensuring functional consistency across Android, iOS, and Web for **200,000+ expectant and new parents** while delivering a sensitive, emotionally positive user experience.

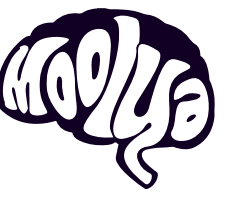

Approach:

- Automated 85% of regression testing across 50+ devices and OS versions.
- Focused on sentiment-driven features such as pregnancy tracker, polls, and healing mode.
- Validated admin panel and advertiser workflows for accurate targeting.

Impact:

- **35% faster release cycles** through automation.
- **25% increase in app ratings** (boosted positive reviews).
- **15% higher ad click-through rates**, improving advertiser ROI.

Case Study 2

Clinical Trial Workflows

Challenge:

Managing **100,000+ clinical trial records**, ensuring secure handling of sensitive medical data and compliance with global regulations.

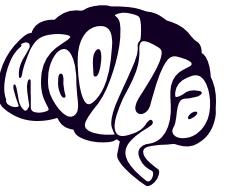

Approach:

- Identified 10+ critical workflows; automated 70% of regression test cases.
- End-to-end validation from UI to APIs and databases.
- Continuous testing across 3 OS upgrades to maintain stability.

Impact:

- Reduced release cycle from 3 weeks → 2 weeks (**40% faster time-to-market**).
- Ensured **100% compliance** with healthcare regulations.
- Saved **300+ manual hours per month** through automation.
- Enhanced user adoption with **20% more engagement** from non-tech-savvy users.

Case Study 3

Healthcare Platform Integration

Challenge:

Testing integration across multiple modules (Quick Consult, Pharmacy, VC Dashboard), with critical workflows like video consultations and payments.

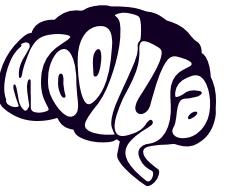

Approach:

- Designed and executed 1,500+ test cases across 5 modules.
- Verified RBAC for 30+ unique roles, including doctors, admins, and patients.
- Stress-tested pharmacy checkout and video consultations for peak usage.

Impact:

- Supported **5,000+ daily video consultations** during pandemic surges.
- Delivered **99.5% uptime** for core modules.
- Improved patient experience, with a **30% increase in daily active users**.
- Reduced pharmacy checkout time by **15%**, boosting conversions.

Case Study 4

Fast-Paced Release Stability

Challenge:

Delivering high stability in a fast-paced release environment with bi-weekly updates across iOS, Android, and Web.

Approach:

- Identified and resolved **200+ issues** during 6 major updates in 3 months.
- Focused on usability, staging-to-production validation, and regression stability.

Impact:

- Achieved **95%** bug-free releases.
- Reduced post-release bugs by **50%**, increasing confidence in releases.
- Improved app stability, reflected in a **4.8-star** average app store rating.
